### DATA DICTIONARY

409 CYPRESS LN.  
ROUND ROCK TX 78664

|   |   |
|---|---|
| <b>CENSUS COUNTRY SATURATION</b>                  | Estimated percentage of renter-occupied units versus owner-occupied units as reported by U.S. Census / American Community Survey within the geography searched. Census estimates rental saturation for 1-4 unit properties and rental saturation for 5+ unit properties. The most recent Census data is from at least 21 months ago.  |
| <b>CONFIDENCE SCORE</b>                           | The confidence score of a valuation is derived from FSD (Forecast Standard Deviation) and indicates the level of accuracy in the AVM estimate. For example, suppose the rent AVM estimate is \$1,000 and the corresponding confidence score is 95. In that case, there is a 68 percent probability that the actual market rent will fall between +/-5 percent around the rent AVM estimate, i.e. between \$950 and \$1,050. The higher the confidence score, the smaller the prediction error and the more confidence we have in the rent AVM estimate. |
| <b>CUSTOM COUNTY SATURATION</b>                   | Estimated percentage of renter-occupied units versus owner-occupied units as reported by RentRange within the geography searched. RentRange estimates rental saturation for single-family detached properties only.   |
| <b>CUSTOM COUNTY VACANCY</b>                      | Estimated vacancy rate as reported by RentRange uses both public and proprietary information within the geography searched. Custom vacancy is for either single-family detached or multi-family depending on the report type.   |
| <b>DAYS ON MARKET</b>                             | Days on market measures the average number of days the property has been listed for rent in that geography.   |
| <b>DAYS ON MARKET VS. VACANCY CHART IN COUNTY</b> | Left Y axis shows days on market represented by bars, the right Y axis and curve line represent vacancy rate in the given county.   |
| <b>ESTIMATED PROPERTY VACANCY</b>                 | RentRange's Estimated Property Vacancy is built from our proprietary aggregated analysis of geographic and property specific trends in each subject property's local area.  |
| <b>GROSS LIVING AREA (GLA)</b>                    | Gross Living Area (GLA) is the total area of finished, above-grade residential space. It is calculated by measuring the outside perimeter of the structure and includes only finished, habitable, above-grade living space. Finished basements and unfinished attic areas are not included in total gross living area.  |
| <b>GROSS YIELD</b>                                | Gross yield is calculated by dividing the total annual projected gross income by the total property price. $\text{Gross yield} = \text{gross income} / \text{total property price}$   |
| <b>HIGH/LOW RADIUS RENT</b>                       | Rent amount for the top and bottom tenth percentiles in the radius searched for either the single-family detached or multi-family properties.   |
| <b>MEDIAN RADIUS RENT</b>                         | Median rent amount for all matching comparable rentals within the radius searched.  |
